Write a report of not more than two pages, on the Corona Virus Pandemic and the effects of the lockdown and restriction of movement on Nigerians.

Answer

Corona Virus And Its Effects

Corona virus is an infectious disease caused by the newly discovered Corona Virus and it is also known as Covid-19.
Most People infected with Corona virus will experience mild to moderate respiratory illness and also stand a chance of recovering without special treatment.
The most Persons affected by this disease are older people and those with underlying medical problems like cardiovascular disease, diabetes, chronic respiratory disease and cancer may develop serious illness.
The best way to prevent and slow down the transmission of this disease is by knowing the means it spreads. Corona virus disease spreads primarily by discharge from the nose or through saliva.
Right now there are no vaccines or treatment for corona virus
Corona virus has many negative effects on people such as the Restriction of movements - Because of the Corona virus out break movements are restricted so that the disease can be contained properly and so that it won't spread.
Secondly, Because of the corona virus outbreak businesses would incur huge losses which they might find it hard to recover from in the future
Thirdly, Because of the lock down the rate of hunger has also increased because individuals find it hard to eat and they can't go out to purchase provision

Fourthly, Because of the lockdown the rate of domestic violence has also increase because people are spending more time with their abusive spouses.

Fifthly, Because of the lockdown the rate of crime has reduced in the urban areas because nobody is allowed to move around and also because security officials are also patrolling too.

Sixthly, Due to the lockdown people become because they donot have anything to do through out the day.
