DEPARTMENT: civil eng
LEVEL: 1001
INSTRUCTIONS

MATRIC No.:
SIGNATURE: [Signature]
COLLEGE: Engineering

- i. Print Out This Question and Fill in the Gap
- ii. STRICTLY use a BLUE Pen in filling in the gap
- iii. Submit a copy on the LMS and then submit a printed copy
- iv. DEADLINE FOR SUBMISSION 25/OCTOBER/2017. SUBMIT IN ROOM A41 COLLEGE 1

1. In what does scholarship, which is a result of our interaction with nature and one another, have its origin in the intellectual and practical needs of society and the individuals and group comprising it
2. One thing that is key to understanding philosophy is having an insight into the activities the practitioners of discipline undertaken since inception
3. By looking at the activities of the practitioners of philosophy from inception, there are a few advantages. Mention one It enables one to see how the discipline has evolved over time.
4. The Milesian philosophers are: Thales, Anaximander, Anaximenes
5. What is the main preoccupation of the Milesian philosophers? Speculating about nature the basic constituent of nature and explaining change in nature
6. The elements that the three Milesian philosophers mentioned as the basic constituent of reality are: Water, Apeiron, and air
7. Some things can be deduced from the nature of philosophy from the way the Milesian philosophers practiced philosophy. Mention two. 1. Wonder 2. life after death or life after life
8. Explain this: Philosophy begins in wonder As a discipline, it started off in order to give rational explanations to certain events puzzling in nature
9. In propounding solutions to puzzles, the philosopher believes that theory has influence on practice, and if people allude to ideas generated in philosophy they can have actions guided by well reason
10. The importance of philosophy inheres in the authority of reason.
