

of the steady state is 25000 kg of SO_2 per day. The
 approximate effects.
 e. The steady state value for the concentration of SO_2 is
 approximately 25000 kg of SO_2 per day. The approximate
 effects are:

The steady state value for the concentration of SO_2 is
 approximately 25000 kg of SO_2 per day. The approximate
 effects are:

The steady state value for the concentration of SO_2 is
 approximately 25000 kg of SO_2 per day. The approximate
 effects are:

The steady state value for the concentration of SO_2 is
