

NAME: UMOKE CHIJOKE ISAIAH

DEPARTMENT: CIVIL ENGINEERING

MATRIC NUMBER: 19/ENG03/030

MATH 102 ASSIGNMENT

Umoke Chifoke Izabal

Civil Engineering

17/ ENGO3/030

Maths 102

$$A = (6u^2 + 8)i + (4u - 10)j + 8u^3k$$

$$B = 3ui + (2u + 5)j + 5k$$

$$1) (A \cdot B) = [(6u^2 + 8)(3u)] + [4u - 10](2u + 5) + [8u^3 \times 5]$$

$$= [18u^3 + 24u] + [8u^2 + 20u - 20u - 50] + [40u^3]$$

$$= 18u^3 + 40u^3 + 8u^2 + 24u - 50$$

$$(A \cdot B) = \frac{d}{du} (58u^3 + 8u^2 + 24u - 50) = \underline{174u^2 + 16u + 24}$$

$$2) \frac{dA}{du} = \frac{d}{du} (6u^2 + 8)i + \frac{d}{du} (4u - 10)j + \frac{d}{du} (8u^3)k$$

$$= \underline{12u i + 4j + 24u^2 k}$$
