## COVID-19 Essay

The Corona virus (Covid-19) is an infectious disease that is caused by the newly discovered Corona virus, it was <sup>first</sup> discovered in China early January of the year 2020 and now is contracted by more than 2 million people on the planet. People infected with this virus may discover it 2 to 14 days after exposure, and may experience, and may experience; fever, cough, Shortness of breath or difficulty breathing, tiredness, aches, runny nose, Sore throat, headache, diarrhea and vomiting. Some may even experience loss of smell or taste. The Severity of COVID-19 symptoms can range from Very mild to Severe.

The coronavirus is unclear exactly how contagious the new Corona virus is. Data has shown that it spreads from person to person among those in close contact (within about 6ft, or 2 meters). The virus spreads by respiratory droplets released when someone with the virus coughs, sneezes or talks. It can also spread if a person touches a surface with the virus on it and then touches his or her mouth, nose or eyes. As you touch people surfaces and objects throughout the day, you accumulate germs on your hands. You can infect yourself with these germs by touching your eyes, nose or mouth, to protect yourself, wash your hands often with soap, Avoid large events and mass gathering, among other stay home to prevent the spread of the virus.

Due to the outbreak of this deadly virus, we are forced to be suspended from our jobs, schools e-t-c, and are forced to be "quarantined", which won't only just have psychological effects on us but also academical and economical effects too. School may be suspended for the rest of the year. also people aren't allowed to do their jobs and meet ends's <sup>means</sup> ~~need~~ and take care of their families.

Predominate business are personal in Nigeria, and most are paid daily. No jobs means no money which means no food which can cause starvation. People are prone to dying of starvation, than they are of the virus.

It would take a while for the world to recover from the gap left in the economy.
