### Coronavirus Disease 2019 (COVID-19)

This is an infectious disease caused by severe acute respiratory syndrome coronavirus 2 (SARS-CoV-2). The disease was first identified in December 2019 in Wuhan, the capital of China's Hubei province, and has since spread globally, resulting in the ongoing 2019-20 coronavirus pandemic. Common symptoms include fever, cough, and shortness of breath. Other symptoms may include fatigue, muscle pain, diarrhea, sore throat, loss of smell, and abdominal pain.

There are several effects of COVID-19 in Nigeria. Some of the effects are; Shut down of business/locks, since the outbreak of COVID-19 in Nigeria all business in areas like Abuja, Lagos, Ogun have been closed down due to the fact of prevent the virus from spreading. Close down of Churches and mosques, churches and mosques are center of social gathering, and to prevent the spread of COVID-19 all form of events, programs that involves any form social gathering must be stop and closed down to prevent further spreading of the virus.

Closure of schools, all schools, polytechnics, University are closed down to prevent the spread of the virus. Since, the outbreak in Nigeria, there have been a steadily increase in the rate of crime in cities and villages, due to the fact that businesses are closed down <sup>so</sup> there is no money, supply to feed for people to feed on, so they have to involve in one/two form of crime in order to live.

High rate of hunger in the country, cities where the lock down

is ~~for~~ strongly enforced the low income individual will ~~have~~ be in the state of hunger, where their income is not enough to feed them throughout this hard period of time.

lastly, Curfew and restriction of movement in cities on lock down is a hindrance <sup>to a</sup> Nigerian daily activity in sense that any movement made is ~~practically~~ stopped.
