

During this period can serve a bond between families must especially and friends via social media. This has taught many Nigerians an alternative to move forward therefore Nigerians are making progress with their daily activities yet this has negative side effect.

It is not an ignorable fact that is to notice of Nigerians that every 2 weeks new set of people have been confirmed with the case of COVID-19 virus. People families are at stake yet some Nigerians refuse to take head by assisting in the prevention of spreading this disease by staying at home. The executives are employed to do so and some people contract this disease due to their stubbornness that has led to their demise.

So far now people just buy good stuff or must have loaded their houses with good stuff and try to protect themselves and families till the problem has been solved.

Subject: CORONA VIRUS PANDEMIC AND RESTRICTION OF MOVEMENTS IN NIGERIA.

The corona virus popularly known as COVID-19, a very deadly virus has caused more than a thousand deaths in various countries. This was first discovered in a country in Asia (China) KUIHART where this was rapidly spread due to its communicable nature a lot of people contracted it. Though the government tried its best to manage it but it got out of control tried its best to manage it but it got out of control and spread across the globe.

Some countries are suffering deadly from this disease apart from China, and some of these countries are Italy, The United States of America, United Kingdom etc. Its mostly the countries in the Europe. Then it affected some countries in some other parts of the world which includes Africa.

Looking at Nigeria, though the 'plague' COVID-19 cannot survive in Africa due to its high temperature but the some countries in Africa have it. Nigeria included, so this has taking a great toll on Nigerians affecting the routine work places in general, shops are shutdown.

Jobs are on hold, shops are shutdown have to adapt to the new life style of working at home and home school which is a new experience for most people.
