ENG 282 Assignment

$$y = y_0 e^{kt}$$
$$y = 3 y_0; y = 3$$

$$A \quad \frac{y}{y_0} = e^{kt} = 3 \quad \text{at } t = 9$$

$$B \quad y = e^{kt} = 9 \quad \text{at } t = 18$$

$$y_0 \quad \therefore \begin{array}{l} A \quad y_0 = 50 \quad \dots i \\ B \quad y_0 = 150 \quad \dots ii \end{array}$$

$$\therefore y = 50 e^{kt} \quad \dots iii$$
$$y = 150 e^{kt} \quad \dots iv$$

$$A \quad \therefore 3 = e^{kt}$$

$$\ln 3 = kt$$

$$\ln 3 = 9k$$

$$k = \frac{\ln 3}{9}$$

$$9$$

$$k = 0.122$$

$$9 = e^{kt}$$

$$\ln 9 = 18k$$

$$\frac{\ln 9}{18} = k$$

$$18$$

$$k = 0.122$$

$$\therefore y = 50 e^{0.122t} \quad \dots A$$

$$\therefore y = 150 e^{0.122t} \quad \dots B$$

$$t = 0, 1, 15$$

$$A(t) = 50 \exp(0.122 t)$$

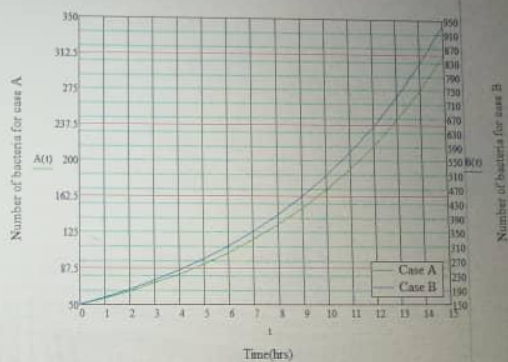

$$B(t) = 150 \exp(0.122 t)$$

A(t) =
