### What do we understand by CORONA VIRUS.

CORONAVIRUSES are a large family of viruses that are known to cause illness ranging from the common cold to more severe diseases such as middle east respiratory syndrome (MERS) A novel, or new, coronavirus is called nCOV. The current new coronavirus is called 2019-Ncov.

#### CORONA VIRUS IN NIGERIA

This virus cases as been increasing seriously in the past few months since February 27<sup>th</sup> ,2020. Its has taken more than a hundred Thousands of lives in other country where some Nigerians also visited and this make the virus spread so fast, especially from foreign returnees and international travellers who are Nigerians. The Nigerian government has made an effort through the NIGERIAN CENTER FOR DISEASE CONTROL (NCDC) to reduce the spread of the virus. They create awareness on precautioned measures for people to follow, they also provide medical facilities to test people. The president declared that every state in Nigerian shout be locked down.

### Symptoms

- The most common symptoms are fever, cough, shortness of breath, and breathing difficulties.
- In most sever cases infection can cause PNEUMONIA, SEVER ACUTE RESPIRATORY SYNDROME, AND EVEN DEATH. The period within which syndrome would appear is 2-14 days.

### Where do coronavirus come from

- Coronavirus cause disease in a wide variety of animal species.
- Several known Corona virus are circulating in animals that have not yet infected human.
- A spillover event is when a virus that is circulating in an animal species is fund to have been transmitted to human.

We have focused on big pictures question of how this Crises has dented the Chinese government image in the eye of its people as well as its impact on an individual level, the human cost of the outbreak as seen through the many families who lost loves ones. We also reported on what it felt like to be this surreal state of as the country ground to a halt.

Even as the outbreak appears to be levelling off, the toll this has taken on the country is tagger it may still be a long time before we can fully appreciate the impact this has had on china.

### The negative effect of lockdown on Nigerians.

- ECONOMIC HARDSHIP: Three days before lockdown come into effect in Lagos, Nigerians largest city, ESTER MILLER, a 23years old user interface designer, purchased 150 litters of petrol in anticipation of having to use her generator a lot more, this lady says the way uses petrol is consuming lots of money and its affect the economic. The way people sell thing in a very expensive way, goad in the market her in a very high price and its affecting the economic growth.
- VIOLENCE: The citizen of Nigerian are into lots of violence against each other and its affect the interaction of the people. People don't have good interaction with one another in the environment.
- LOSS OF JOB: A lot many are fearing loss of job, some have already seen pay cuts and appraises are getting delayed almost for everyone, the covid19 crisis and the ongoing lockdown has left employs feeling anxious and worried about their future, prompting many corporates to look for ways to keep the staff motivated.

### The positive effect of lockdown in Nigeria

- It brings family closer and make them bond than before.
- It allows people to be more closer to GOD
- It gives time to those people to relax due to over work before the lockdown.
- It reduces the spread of the virus more than other country in the word.
- It gives people the opportunities to discover there talent or make online businesses.

CONCLUTION: Corona virus has caused a lot of thing in Nigerian and changed a lot of things in Nigerian. The NCDC as been doing a good job in preventing the spread of the virus, they have deployed a new tool for disease surveillance. With the help of them we only pray that the spread of this virus does not go wide. Currently there is no vaccine but that don't mean for people to go out so every one shout prevent one another.

THANK YOU.
