EFFECTS OF LOCKDOWN AND RESTRICTION OF MOVEMENT IN NIGERIA

Lockdown is an emergency protocol that usually prevents people or information from leaving an area. The federal government has ordered an ultimate lockdown in Nigeria and this prevent the restriction of movement among the Nigerians. There are positive and negative effects of the lockdown in Nigeria. The positive effects of the lockdown in Nigeria are

- It allows family to bond together and do things together
Relaxation to those who don't have time for themselves before the lockdown
- Reduce the virus from spreading more further from other countries to our country

The negative effects of the lockdown includes:

- It leads to the increase in the prices of limited goods in the market.
- The poor becomes poorer
- People struggle to survive

CONCLUSION :

In conclusion, corona virus has caused a lot of things in Nigeria and changed a lot of things in our country, Nigeria. The federal government of Nigeria though the federal ministry of health have been trying their best to ensure that the outbreak in Nigeria is been controlled and stopped immediately. The NCDC has been activated in national emergency operation center working in different states in Nigeria. Medical personnel are trying their best to give out ways to stop the pandemic called corona virus. As the outbreak is still in our country and the lockdown is still going on, we should listen and act to the preventive measure that can keep us safe in this pandemic. The federal government are really trying their best to make sure Nigeria is safe and we need to listen to the preventive measures and put it to act
