## REPORT OF CORONA VIRUS AND THE EFFECTS OF LOCKDOWN AND RESTRICTION OF MOVEMENT IN NIGERIA.

Coronavirus is a new disease that was originated from China [we have to be precise] in the late December 2019. It is a disease that can easily be spread through physical contact with an infected person, through droplets of saliva or discharge from the nose of an infected individual.

The disease is associated with symptoms like diarrhoea, cough, shortness of breath and fever.

Currently there is no vaccine but as ~~per~~ the WHO say the preventive measure is by washing our hands regularly for about a minute, maintaining physical distance from others, use of masks and so on.

Presently, the pandemic has been ravaging and put the whole world in health emergency including NIGERIA.

### EFFECTS OF LOCKDOWN AND RESTRICTION OF MOVEMENT IN NIGERIA.

The federal government has ordered an ultimate lockdown in Nigeria and this prevent the restriction of movement among the Nigerians.

These are the positive effects of the lockdown in Nigeria;

- (i) It makes people reasons to think about how to involve into online businesses,
- (ii) Reduces the virus from ~~spreading~~ spreading more further from other countries to our country
- (iii) It allows family bond together and do things together
- (iv) It corrects a child mistakes and adjusts him/her.

(v) People are now wiser to make plans flexible knowing that there is nothing that can't be cancelled.

The following are the negative effect of the lockdown;

(i) The poor becomes poorer

(ii) ~~the~~ It introduces vices which includes stealing, prostitution, and armed robbery.

(iii) It degrades the economy of the country.

(iv) It leads to increase in price of limited goods in the market.
