PRODUCTION AND SERVICE OPPORTUNITIES AVAILABLE DUE TO THE COVID-19 LOCKDOWN

The rapid spread of the covid-19 virus, usually referred to as the corona virus has become a dangerous threat to society, and has a negative impact on a lot of businesses around the world which have had to cease their operations until the foreseeable future. This also poses as a threat to individual which resulted in the lockdown world wide to prevent its spread.

Although this lockdown has its negative effects, it also has its positive effects, which has urged citizens to become innovative and be more in touch with their creative sides. For many individuals and businesses, the threat of COVID-19 is a loss financially, but there are many others who have proved to be benefitting from the forced situation. There are a lot of production as well as service opportunities available during this global pandemic like:

- Cloud computing: Employees have migrated to the use of the cloud to stabilize their business operations.
- Online entertainment (Netflix) : Individuals have resulted in the use of Netflix as an easy resort for entertainment.
 - Delivery services
 - Video gaming industries
 - Enhanced telecommunication
 - Making homemade face masks for distribution
 - Learning how to sew

- Start baking
- Learning new skills sets
- Starting online talk shows to keep others at ease
- E-Commerce
