

PRODUCTION AND SERVICE OPPURTUNITIES AVAILABLE DURING THE CORONAVIRUS LOCK DOWN.

The global covid-19 lock down is executing terrible human toll and menacing the worlds economy. Business are seriously trying to cope with the loss revenue and the disrupted supply chains due to the shut down of factories. The unemploment rate is also skyrocketing.

Well, while the global pandemic has caused a negative effect on most individuals and businesses, it has also led to a positive effect on some certain businesses such as;

1. MARKET SUPPLIERS: People into such business are potential winners during this lock down, because most hospitals need high supply of such things due to the global pandemic.
2. SUPER MARKETS: Individuals who own retail shops, supermarkets, etc have also experienced high sales during the lock down due to the high demand of products like food and sanitizers.
3. VIDEO CALLING APPLICATIONS/COMPANIES: Such companies have also experienced high profits. An example includes the Zoom Application, according to reports the firms market value has jumped to 42 billion dollars
4. NETWORK SERVICES: network services such as MTN, GLO etc, that provide network an interner services, have also been positively affected because of the high demand for data.
5. E-COMMERCE: online stores such as Jumia, BAZEBO, and others are also receiving high demand for goods due to the fact that shoppers are scared of going out and also because of the lock down.

Other service oppurtunities during the lock down include, Agriculture, video gaming companies, online entertainment, for example NETFLIX.

In conclusion we can only hope and pray that the pandemic comes to an end. And also hope that we will be able to recover from the losses we have experienced due to it.
