The Ekulu, Asata, Ogbete, Aria, Idaw and Nyaba rivers are the six largest rivers located in the city. The Ekulu River is the largest body of water in Enugu urban and its reservoir contributes to part of the city's domestic water supply.

The River Ekulu is a 25-kilometre (16 mi) long river and the largest body of water in the city of Enugu in Enugu State, southeastern Nigeria, and it originates in the same city as well.
