Civil Engineering

① Success factors in project management

① Cost

② Quality

③ Time

④ Risk factor

⑤ Scope of work

⑥ Schedule

2) Utilization of strategy and energy for realization of organizational goals

① A strategic plan provides management the roadmap to align the organization's functional activities to achieve a set goal

② Energy seeks to encompass all the skilled and unskilled staff playing various roles in the strategies drafted by the company

③ Management economists seek to minimize cost and maximize productivity and results produced by the energy who operates in accordance with the strategy. This which helps reach organizational goals faster
