SNAP TEST

1. Enumerate success factors in project management.
 - a. Time
 - b. Scope of work
 - c. Cost
 - d. Quality
 - e. Scheduling

2. Managerial economist utilize strategy and energy for realization of organization goals, in three sentences, discuss your view on this.

This is important because without strategies there would be no view on how the goal we want to obtain will look like, plans has to be laid and procedures in obtaining those goals has to be identified by strategic approach
