ASSIGNMENT

ASSIGNMENT.

COURSE TITLE

ENVIRONMENTAL HEALTH.

COURSE CODE

NSC 314.

QUESTIONS

DESCRIBE THE DIFFERENT TYPES OF ENVIRONMENTS. GIVE EXAMPLES OF EACH TYPE OF ENVIRONMENT.

SOLUTION

The environment is divided into three types we have

- **Natural environment**
- **Industrial environment**
- **Social environment**

NATURAL ENVIRONMENT

- ***This environment means all living things and non-living things occurring naturally, meaning not because of humans. The universe is natural, but often the term “ natural environment” only means nature on earth.***
- ***it is divided into two aspects***
 - ***Ecological, which are natural system without human interference***
 - ***Universal are physical phenomena which lack clear-cut boundaries.***

INDUSTRIAL ENVIRONMENT

- ***Is a term used to describe working condition that may be outside of optimal? They are usually more harsh than normal work environments, such as an office. In an environment, people and equipment are exposed to more extreme condition. Depending on the job, these conditions can be very severe.***

SOCIAL ENVIRONMENT

- ***Refers to immediate physical and social setting in which people live or in which something happens or develop. It includes the culture that the individual was educated or lives in, and the people and institutions with whom they interact. The interaction may be in person or through***

communication media, even anonymous or one-way, and may not imply equality of social status. The social environment is broader concept than that of social class or social circle.

EXAMPLES OF EACH TYPE OF ENVIRONMENT

NATURAL ENVIRONMENT

- ***Water, light, land, air, and all organism that live in nature.***

INDUSTRIAL ENVIRONMENT

- ***Cities, villages, factories, and all human synthesis***

SOCIAL ENVIRONMENT

- ***Authorities, university, schools, companies and other establishment along with their output legal and their communication ways.***
