

Name: Chukwemeka Kingsley Ebu...

Mat No: 191 ENS04 1060

Dept: Electrical Engineering

Course: DLS

Date: 15th May 2020

1)

Planning: Discuss about the Project

Analysis: Analyze the step to be taken and resources

Involved

Design: Discuss the structure of the Project

Implementation: Start implementing the plans

Maintenance: Discuss what is necessary to maintain the Project

2) Hardware

1) Arduino

2) Breadboard

3) Moisture Sensor

4) Temperature Sensor

5) Light Sensor

6) Bluetooth device

7) Level Sensor

8) SD Card

Software

App Inventor!

This enables me control the system from a

far distance

3)
