MECHANICAL ENGINEERING

TEST

You have been invited by the current president of Nigeria ,General Muhammadu Buhari to make an argument for the optimization of engineering resources in the country .As an aspiring Engineer, briefly discuss your view on this and make viable recommendations that will facilitate timely completion of engineering projects within the allocated budget without jeopardizing economic and legal regulations of Nigeria.

Answers

Transparent contractor relationship can manage the engineering resources contracts are awarded to engineering companies ,such contracts should have a supervisor and an economist.

Human resources manager must work together with the economist and the supervisors as the fundings are being controlled by him.also the factors affecting the funds are being considered. This enables smooth flow of funds from the presidency to boots communications with the workers .
