

NAME: MMEZI VICTOR

DEPT: MECHANICAL

SUBJ: ENG LAW

Economists, engineering managers, project managers, and indeed any person involved in decision making must be able to analyze the financial outcome of his or her decision. Juxtapose these statements in three sentences

1. The economists ensure that the cost required to perform a project is it worthwhile.
2. The project managers ensure that the project are being optimized and achieved during the allocated time assigned to it.
3. The engineering managers should ensure that the resources used are not cost effective.
