ENG 384

ENGINEERING LAW

QUESTION ONE

Relevance of Law, Management and Economics in Engineering Profession.

Engineers have an added responsibility and that is to include economics in their calculation and decisions to solve real life problems. The relevance of law, management and economics in engineering profession include:

- 1) Provides systematic framework for problem analysis and solution.
- 2) Establishes the extent of need for the project.
- 3) Fixing the optimum scope and scale of development.
- 4) Enables the engineer to be able to spend funds effectively.
- 5) Enables the engineer to be able to manage the project, effectively.
- 6) Provide accurate decision makings.
