Matric No: 17/ENG02/006

## **Brief report of my activity during the covid-19 for the past 3 months**

In this 3 months covid-19 break period, i have used it to learn alot. I have used it to perfect my self on how to do several things and also gained knowledge about different things too.

I used it to do some classes online and at the same time i researched on things that will help me out in my field of study which is Computer Engineering.
