

Name: Idris Sadiq Daniel

Department: Computer Engineering

Matric No: 17/ENG02/033

## Snap Test2

2. As a computer engineer by discipline the force majeure clause can be applied by :
  - Covid-19 taking a toll on the world and affecting the entire workspace of engineers. As a computer engineer working on hardware has been impossible as nothing was moving and clients unable to send in problems and lack of materials.
  - Covid was also unanticipated by anyone when signing the contract thus the force majeure clause is applicable.
