

Name: Samuel Ndukwe

Matric Number: 16/Eng04/031

Department: Electrical/Electronics Engineering

Course Title: Engineering law and Managerial Economics

Course code: ENG 384

SNAP TEST 1

1. Write a brief report of your activities during the COVID-19 for the past three months.

Answers

1. During this Pandemic period, It has caused individuals to be shorthanded with tasks and the ability to accomplish their specific needs. For the past three months, I have just been able to improve my skills (That is; My God given talents) and discover new skills as well.

I have also been attending my classes because I realise that this period is one for my education and learning and a price (school fees) so I have to put in my work as a student to attend online classes in any way I can and continue to read my books preparing for my exams and test like this to come. As a student I must be prepared at all times.
