

NAME: DADA TITILOLAMI JADESOLA

DEPARTMENT: CHEMICAL ENGINEERING

MATRIC NO: 19/ENG01/017

1. Write a brief report of your activities during the Covid-19 period for the past three months

My name is Dada Titilolami Jadesola, I am a student and I would like to share the activities I did during the Covid-19 period.

At first I didn't know this period would last for 3 months so I was just lazing around watching movies and was thinking it was time for resting. But I realized that the pandemic was getting worse and the time was taking longer so I got thinking that why didn't I use this period for something useful. So I sat down and set a time table for myself so I would use my time wisely and the time table include;

- a. Wake up early in the morning and start doing my house chores.
- b. Prepare breakfast for the family
- c. Attend my online classes (school)
- d. Doing my school assignment
- e. Offering online courses (Khanacademy.org)
- f. Reading of my books
- g. Reading educational books
- h. Reading novels
- i. Eat lunch
- j. Exercise
- k. Take dinner
- l. Sleep early

And then I realized I'm still not adding value to myself then I sat down and thought what do I do to add value to my life. I prayed to God that night to enlighten me and he did. The next day, I engaged in some business like selling of recharge cards, perfumes and it paid me well cos I am making profit.

This routine has helped me a lot in financial, physical, mental and academic aspects. Although, it hasn't been easy because I have up and downs but I use this period to challenge myself to do more.
