| $\checkmark$ Price earning ratio MPS/EPS | 0.08 times |  |

## INTERPRETATION OF RATIOS FOR BERGER PLC AND MEYER PLC

$\checkmark$ Berger paints can meet up with paying its debt compared to Meyer paints.it also shows that Meyer paints will find it difficult to meet up with their debts. (CURRENT RATIO)
$\checkmark$ Berger paints cannot pay its current liabilities using current cash and cash equivalents but compared to Meyer they are better. It also shows that the ability of Meyer paints to pay its current liabilities using current cash and cash equivalent is very low. (QUICK ASSET)
$\checkmark$ Berger paints will obtain their receivable faster than Meyer paints due to their lower number of days. Meyer paints would be advised to be more strict with its debtors in order for them to collect their money(RECIEVABLE COLLECTION PERIOD)
$\checkmark$ Berger paints number of days before it pays off its credit purchases is more than Meyer paints making Meyer paints better.(PAYABLES PAYMENT PERIOD)
$\checkmark$ Berger paints number of days for inventory turnover is more, and in comparison to Meyer paints its better.(INVENTORY TURNOVER PERIOD)
$\checkmark$ Berger paints receivable turnover is higher compared to Meyer paints, making Berger paints the better(RECIEVABLE TURNOVER)
$\checkmark$ Berger paints is better in payables turnover in comparison to Meyer paints (PAYABLES TURNOVER)
$\checkmark$ Berger paints inventory turnover is not too bad but Meyer paints is better(INVENTORY TURNOVER)
$\checkmark$ Meyer paints efficiently uses its capital and generates more profit c compared to Berger paints (ROCE)
$\checkmark$ Berger paints manages its financial health and has better gross profit compared to Meyer paints(GROSS PROFIT MARGIN)
$\checkmark$ Berger paints is better for investment compared to Meyer paints due to its higher EPS. (EPS)
$\checkmark$ Berger is a more investable company compared to Meyer paints as Meyer paints company didn't issue dividends(DPS)

## CONSUMER SERVICE

## ANNUAL REPORT AND INTERPRETATION OF RATIOS FOR NIGERIAN BRWERIES AND GUINESS

$\checkmark$ Guinness can meet up with paying its debts faster and better compared Nigerian Breweries. It also shows that Nigerian breweries will find it really difficult to meet up with their debts. (CURRENT RATIO)
$\checkmark$ Guiness cannot pay its current liabilities using current cash and cash equivalent but compared to Nigerian breweries its better. And the ability for Nigerian breweries to do this is low.(QUICK ASSET)
$\checkmark$ Nigerian breweries will obtain their receivables faster than Guiness due to their lower amount of days. Guiness should be strict with their customers in order for the to receive their receivables faster. (RECIEVABLE COLLECTION PERIOD)
$\checkmark$ GUINESS pay up their credit purchases in a shorter amount of days compared to the Nigerian breweries. The Nigerian breweries take a longer number of days. (PAYABLES PAYMENT PERIOD)
$\checkmark$ GUNIESS has a higher number of days for inventory turnover compared to Nigerian breweries making it better. (INVENTORY COLLECTION PERIOD)
$\checkmark$ The number of times for inventory turnover for the Nigerian breweries is higher compared to GUNIESS making it better. (RECIEVABLE TURNOVER)
$\checkmark$ GUINESS is better than Nigerian breweries in terms of payables turnover because its number of times is more. (PAYABLES TURNOVER)
$\checkmark$ The inventory turnover for GUINESS is okay but in comparison to Nigerian breweries, Nigerian breweries is better. ( INVENTORY TURNOVER)
$\checkmark$ GUNIESS efficiently uses its capital and generates more profit compared to Nigerian breweries. The capital usage for Nigerian breweries is low. (ROCE)
$\checkmark$ Nigerian breweries manages their financial health and has a better gross profit margin compared to GUNIESS, not that the gross profit margin for GUINESS is bad though. (GROSS PROFIT MARGIN)
$\checkmark$ GUINESS is better for investment due to its high EPS in comparison to Nigerian breweries. (EPS)
$\checkmark$ Nigerian breweries has a higher DPS in comparison to GUNIESS, which makes it good for investment. (DPS)

## INTERPRETATION OF RATIOS FOR IKEJA HOTELS AND TRANSCORP HOTELS

$\checkmark$ IKEJA hotels and TRANSCORP hotels will find it difficult in meeting up with their debt, but in comparison IKEJA seems to be better. (CURRENT RATIO)
$\checkmark$ IKEJA and TRANCORP hotels cannot pay its current liabilities using its current cash and cash equivalents but in comparison IKEJA is better. (QUICK ASSET)
$\checkmark$ IKEJA hotels will obtain their receivables faster due to their lower number days in comparison to TRANCORP hotels. TRANCORP hotels will need to be a bit strict with their debtors. (RECIEVABLE COLLECTION PERIOD)
$\checkmark$ IKEJA hotels will pay off its credit purchases faster due to its lower number of days. The number of days for TRANCORP is lower. (PAYABLES PAYMENT PERIOD)
$\checkmark$ TRANCORP hotels in terms of inventory turnover is better due to its higher number of days in comparison to IKEJA hotels. (INVENTORY TURNOVER PERIOD)
$\checkmark$ The receivables turnover for IKEJA hotels is better because in comparison to TRANCORP its number of times is higher. (RECIEVABLES TURNOVER)
$\checkmark$ The payables turnover for IKEJA hotel, in terms of comparison is better than TRANCORP hotels. (PAYABLES TURNOVER)
$\checkmark$ The inventory turnover for TRANCORP hotels isn't too bad but in comparison to IKEJA hotels , IKEJA hotels is better.(INVENTORY TURNOVER)
$\checkmark$ IKEJA hotels efficiently uses its capital and generated more profit compared to TRANCORP hotels. (ROCE)
$\checkmark$ TRANCORP hotels manages their financial health and has a better gross profit margin compared to IKEJA hotels. (GROSS PROFIT MARGIN)
$\checkmark$ IKEJA hotels is better for investment compared to TRANSCORP due to its higher EPS. (EPS)
$\checkmark$ The DPS for TRANCORP hotels is better compared to IKEJA hotels, as IKEJA hotels didn't issue dividend. (DPS)

## HEALTH CARE SERVICE
