MATRIC NUMBER:17/SMS01/001

PCS106 ASSIGNMENT

Describe the conflict in one sentence?

It is a conflict between two communities over landed properties

What type of conflict is it?

Inter-personal conflict.

What are the sources of the conflict?

Ans:The main source of the conflict is believe and needs. Each party believes the land in question is their ancestral land.

How many parties are involved in this conflict. List them?

Ans:Two communities are involved in this conflict. The Ediba and Usumutong communities in cross river state are involved in this conflict.

Describe the relationship among the parties?

Ans:They two communities are neighbouring communities.

How long has the conflict been going on?

Ans:This conflict has been going on for many years. It's been recurring. It dates back to ten years ago.

How are the parties currently dealing with the conflict?

Ans:Elders from the two communities came together severally to talk with their youths, so as to put an end to the conflict but a few individuals from both communities would refuse for an agreement to be reached. Lately, these peace loving elders met again with youths of the land from both communities, to talk about peace. They came to an agreement that the land in question should be shared between the two communities equally instead of one community taking it all. Peace has to a large extent returned to both communities.

What can the parties do towards ending the conflict?

Ans:They can dialogue the two communities can agree to be satisfied with the land mass that they already have and make the best use of it. They parties should stick to the agreement they have had to share the land in question and be satisfied with their decision.
