5 Thematic Thrusts in good morning Sodom by Doctor Solomon Edobor.

5 Thematic Thrusts in good morning Sodom by Doctor Solomon Edobor.

Negative peer influence: In the play Demola was a victim of negative peer influence which he was lured to buy K.k one of the student of the university negative peer pressure is often related to influencing bullying behaviours drinking alcohol and drug use which Demola was introduced to by his friend. Negative peer influence can be harmful to a child or young person's well-being the effect of all this unlawful behaviour can cause decrease self confidence self worth and distance from family members and might cause death too which was the Demola's Fate.

Theme lack of parental care: Engineer and Mrs Diran failed as a parent for Demola . They thought money was everything they didn't care if their son was doing well in the university and the never deem it fit to be checking on him in school to know more about his academics and social life since his parents were not there for him, he decided to take bad advice from bad friends and he was lured to smoking taking hard drugs because nobody told him the side effect of everything he was doing. so parental care is needed for every student.

Theme cultism: Demola was lured to cultism by his friend K.k and they committed so many atrocities like raping girls taking alcohol and hard drugs killing their fellow students who were also involved in cultism but different from theirs which means they are opponent. Some students joined secret cult because of power while some joined to feel high some joined because of their naiveness some joined in order to take revenge some joined in order to scare lecturers to give them good grades which they don't deserve.

Theme the ability of constituted authorities to take decisive steps towards curbing the peer influence, bad peer influence of taking hard drugs, drinking of alcohol the authorities should banned the production of alcohol and the importation of hard drugs . The Federal Government should make a law binding the sales of alcohol and hard drugs to just anybody. And the authorities of various schools should take steps towards curbing the Menace by doing drug test for the students anytime they want to resume like what Aare Afe Babalola made compulsory for every student on resumption day. Aare Afe Babalola also made is very compulsory for every student who wants to study in his school to swear court affidavit and they must provide Court attestation letter and a letter written by the pastor or cleric to know each and every student behaviour so all the schools too should make use of this method in order to reduce the occurrence of students joining bad gangs.

Theme Death : Death is the final is the final bus stop of all human beings. All the themes have listed above can cause death of a university student which is the case of Demola who died a tragic death in the play. So in every thing we do we should always remember one thing which is death. Either rich, poor, adult, youth, teenager or infant we will surely taste death which is an inevitable event.

CHARACTERS IN GOOD MORNING SODOM

Demola

A student of Mayflower University who fell victim of negative peer influence and engaged himself in various atrocities like drinking alcohol, intake of hard drugs, raping girls and killing. He was easily influenced by peer group because his parents were not always there for him, they only provided for him financially which money is not everything in life. Never did they know that their son needed their advice and guidance the most but they never care. Demola later died as a result of joining a secret cult which his friend K.K introduced him to. He died during a fight between their cult group and other cult group he was shot by K.K who claimed it was unintentional that the bullet was for one of their opponents which unfortunately hit Demolar and he died on the spot. Like the Yorubas will say "Teni Ku loju" Is the person that died that suffered the loss.

KEZIAH

Keziah also a student of Mayflower University whose parent is Dr and Mrs Richards. She was an intelligent, diligent and an upright person who doesn't take nonsense from anybody. She's not materialistic and wayward because her parents were always there for her. She accidentally got pregnant because she was raped by one of her fellow student Demola who used assignment as an excuse to lure her to his room and he drugged and charmed her using an handkerchief which made her unconscious for several hours and he raped her when she was sleeping. So when her parent discovered that she was pregnant they were very disappointed in her. The mother later accepted her that way but the father always gives her attitude and complains about her until she attempted committing suicide which she later gave birth to a girl and continued her education.

Engineer and Mrs Diran

Demola's parents ruined their son's life thinking that all they can give to their son is to provide him with money and other materials. Little did they know that their advice and mentorship is also needed to raise their child. They made a mistake of giving their responsibilities on their child to a total stranger who later misled their only son who is also their only child. They regretted their mistake but it was too late because their son was already dead and they can't turn the hand of clock.
